YEAR-END STATEMENT**
As of 02/07/2025
Mailed by 02/21/2025**IRS Form 1099-B—Proceeds from Broker and Barter Exchange Transactions:**

The amounts in this section of your Tax Information Statement reflect proceeds from securities transactions such as sales, redemptions, tender offers, return of principal distributions, covered options and bond maturities. Short-term and long-term transactions are segregated in your 1099-B form in a format comparable to IRS Form 8949 for dispositions of covered and noncovered securities. Since your financial organization subscribes to our premium Tax and Year-End Statement, the date of acquisition, cost or other basis, type of gain or loss (short-term or long-term), whether any loss is disallowed due to a wash sale and market discount for both covered and noncovered securities transactions will be displayed when available. Such detail for noncovered transactions is not reported to the IRS.

Box 2—Type of Gain or Loss. The section headings within the 1099-B indicate the type of gain or loss for the transactions, short-term or long-term. An asterisk will denote when your security may be subject to special rules. For example, gain on a contingent payment debt instrument subject to the non-contingent bond method generally is treated as ordinary interest income rather than as a capital gain. See the Instructions for Form 8949, Pub. 550, or Pub. 1212 for more details on whether there are any special rules or adjustments that might apply to your security.

Box 12—Covered or Box 5—Noncovered Security. The section headings within the 1099-B indicate whether your security transaction is or is not a covered security under the IRS cost basis reporting program. For tax return reporting purposes, you may need to adjust your cost basis information on IRS Form 8949 and Schedule D of IRS Form 1040. You may also need to consider tax reporting rules that a reporting financial organization is not required to use when preparing your Form 1099-B, such as when reporting wash sales. As a result, you must take into account all applicable tax return reporting rules and be able to verify, from your own records, all cost basis information that is reported on your tax return. The IRS requires you to maintain all such records in case you are asked to produce them. For gifted shares where the original cost is greater than the fair market value, if you elect to include these shares in the average calculation, you must instruct your investment professional in writing to move these shares from fair market value to the average calculation.

Box 1a—Description and Quantity. Shows a brief description of the item or service for which the proceeds are being reported, as well as the number of shares included in the sale or exchange for the lot reported. If fractional shares are part of the disposition, those shares will be displayed to four decimal places.

CUSIP. Broker transactions may show the Committee on Uniform Security Identification Procedures (CUSIP®) number of the item reported.

Box 3—Qualified Opportunity Fund (QOF). This indicator will be displayed next to the CUSIP if the proceeds are from the disposition of a QOF.

Box 1b—Date Acquired. This box represents the date you acquired the security or, for short sales, the date you opened the short sale. You may see the word VARIOUS displayed in this column if the disposition transaction includes multiple lots with various acquisition dates.

Box 1c—Date Sold or Disposed. Shows the trade date of the sale or exchange. For short sales, the date shown is the date you closed the short sale.

Box 1d—Proceeds. The proceeds amount from transactions involving stocks, bonds, and other debt obligations are reported in Box 1d. These amounts do not reflect net profits and are net of transaction costs. The proceeds amount may also be increased by an option premium received or decreased by an option premium paid. Report the proceeds from each transaction separately on IRS Form 8949 (Sales and Other Dispositions of Capital Assets) and IRS Form 1040, Schedule D (Capital Gains and Losses). This box does not include proceeds from regulated futures or foreign currency forward contracts.

Box 1e—Cost or Other Basis. This box shows the reportable cost basis which may be adjusted for a corporate action, fixed income adjustment, gifted or inherited cost basis, etc. The IRS provides a detailed description of cost or other basis reporting in the Instructions for Form 1099-B, available at [irs.gov](https://www.irs.gov).

Basis on Bonds. For covered bonds, Pershing reports the adjusted cost basis inclusive of amortization of bond premium, OID, acquisition premium, NQSI and the accretion of market discount depending on taxpayer election. The adjusted cost basis for a noncovered bond is calculated without consideration of your elections and may not be the same method you chose when deciding to amortize or accrete. You or your tax professional should verify the amounts that have been previously calculated to adjust the cost basis of the bond and reported throughout the life of the bond starting with the original purchase price.

Adjustments—The adjustment column may display one or more of codes D, O or W:

Box 1f—D = Accrued Market Discount. An adjustment code (D) will be displayed next to an amount for accrued market discount. A market discount condition exists when the purchase cost of a bond is below the adjusted issue price of an original issue discount bond (OID bond) or below the redemption value of a non-OID bond. For details on market discount, see Schedule D (Form 1040) instructions, Instructions for Form 8949 and Pub. 550.

O = Option Premium (Not Reportable to the IRS). An adjustment code (O) will be displayed next to the amount for an option premium within the Adjustment column. When stock is sold based upon the assignment of either a put or a call option, the proceeds of that sale are adjusted by the price of the option or the option premium.

Box 1g—W = Wash Sale Loss Disallowed. An adjustment code (W) will be displayed next to an amount for a disallowed wash sale loss within the Adjustments column. This loss is reported as disallowed because the sale of the covered security has been adjusted under the broker wash sale rule. This occurs when you re-purchase the identical security, as determined by CUSIP number, in the same account within the 30-day period preceding or following the date of the original loss. The wash sale loss is displayed within Box 1g as a positive amount as required by the IRS. For details on wash sales, see Schedule D (Form 1040) instructions, Instructions for Form 8949 and Pub. 550.

Realized Gain or (Loss). The realized gain or loss for the transaction may be displayed. It is not reported to the IRS.

Sale Date Total. If you sell or dispose of multiple tax lots on the same date, you may see a line item with SALE DATE TOTAL noted. The totals provided in this line item are an aggregate of the lots listed above the total line when the security and sale or disposed dates are the same. For this total, the word VARIOUS will be displayed in the Date of Acquisition column, since the total includes multiple lots with different acquisition dates. These total amounts are included to assist you with the completion of IRS Form(s) 8949.

Income Tax Withholding: If federal or state income taxes were withheld from your proceeds amounts, they will be reported and displayed in this section.

Quantity. This quantity is for reference purposes only and is the total number of shares that may have been split and reported in earlier 1099-B sections.

Proceeds. This amount is for reference purposes only. It represents the total proceeds for a sale or exchange. If a sale or exchange included multiple lots, the proceeds amount is reported at the lot level in the appropriate 1099-B section.

Date Sold or Disposed. This box shows the trade date of the sale or exchange.

Box 4—Federal Income Tax Withheld. Federal income tax withheld is 24% of gross proceeds. See the Additional Information section of these instructions.

Box 14—State. Displays the two-letter postal abbreviation of the state(s) for which state income taxes have been withheld.

Box 15—State ID Number. Displays the payer's state identification number(s).

Box 16—State Tax Withheld. Displays the amount of state income tax (es) withheld.

Foreign Tax Paid. This box shows foreign tax paid. You may be able to claim this tax as a deduction or a credit on your IRS Form 1040. See the Additional Information section of these instructions. This amount is not reported to the IRS.

The IRS requires us to remind taxpayers that you are ultimately responsible for the accuracy of your tax return.

IRS Form 1099-INT—Interest Income:

The amounts in this section of your Tax Information Statement reflect interest paid to you during 2024.

Payment Date. The payment date for the interest payments are displayed above the details. A payment amount may be prorated across multiple lots. If there are multiple lots for a payment, a payment total is provided after the details. The payment total will match the interest paid on the noted payment date.

Lot Quantity. This column includes the amount of fixed income or debt instruments purchased in one transaction. If you purchased the same security on different dates, each purchase creates a separate lot along with the corresponding number of bonds.

Acquisition Date/Original Cost Basis. The acquisition date represents the date you acquired the security or, for short sales, the date you opened the short sale. In the absence of cost basis amounts, the acquisition date is the transfer date of the security. The Original Cost Basis represents the amount that you originally paid for the bond or units and has not been adjusted for return of principal, amortization or accretion.

Period Begin/End Date. The beginning and end date of the accrual period.

Cost Basis at Beginning/End of Period. Amount represents the purchase price adjusted for return of principal distributions, amortization, and accretion at the beginning and end of an accrual period.

Box 1—Interest Income. Interest earned from U.S. corporations, U.S. government agencies, foreign sources and credit interest is included in Box 1.

Box 3—Interest on U.S. Savings Bonds and Treasury Obligations. Interest earned from U.S. savings bonds, Treasury bills, Treasury bonds and Treasury notes. This interest income is exempt from state and local income taxes and is reported in Box 3. This income is not included in Box 1.

IRS Form 1099-OID--Original Issue Discount:

The amounts in this section of your Tax Information Statement reflect the original issue discount (OID) reported to the IRS. OID is a form of interest. It is the difference between the stated redemption price at maturity and the issue price of a debt instrument. A debt instrument, such as a bond or note, generally has OID when the instrument is issued for a price less than its stated redemption price at maturity. If you own a debt obligation that was issued with an OID, you may be required to include a portion of the OID in your gross income each year that you hold the obligation, even if you did not receive any cash payments. Pershing will calculate your OID based on your original purchase cost when available.

Acquisition Date. The acquisition date represents the date you acquired the security or, for short sales, the date you opened the short sale. In the absence of cost basis amounts, the acquisition date is the transfer date of the security.

Lot Quantity. This column includes the amount of fixed income or debt instruments purchased in one transaction. If you purchased the same security on different dates, each purchase creates a separate lot along with the corresponding number of bonds.

Original Cost Basis. The Original Cost Basis represents the amount that you originally paid for the bond or units and has not been adjusted for return of principal, amortization or accretion.

Days Held or Payment Date. This column shows the part of the year the obligation was held and the payment date for the other periodic interest payments.

Box 1--Original Issue Discount. Amounts in this box reflect the OID on each obligation for the portion of the year during which it was owned. Report the total for each security separately as interest income on your income tax return. OID on U.S. Treasury obligations is not included in this box.

Box 2—Other Periodic Interest. If you held a bond that was issued with an OID component and it also made cash interest payments, then we report the cash payments to you in Box 2, Other Periodic Interest, of the Form 1099-OID section of your Tax Information Statement. Also, when a real estate mortgage investment conduit (REMIC) is issued with OID, we report the accrued interest earned on the REMIC as other periodic interest. Report the total for each security separately as interest income on your income tax return.

Box 5—Market Discount. If you made an election under section 1278(b) to include market discount in income as it accrues and you notified your payer of the election, this box shows the market discount that accrued on the debt instrument during the year while held by you. Report this amount on your income tax return as directed in the instructions for Form 1040. The market discount will be displayed for both covered and noncovered transactions. Only covered transactions will be reported to the IRS. Note: The single amount shown is related to the tax lot for all accrual periods during the year that the security was held.

Box 6—Acquisition Premium (OID Offset). This is the amount of acquisition premium amortization for the year that reduces the amount of OID included as interest on your income tax return. If an amount is reported in this box, see the instructions for Form 1040 (Schedule B). If an amount is not reported in this box for a security acquired with acquisition premium, then a net amount of OID reflects the offset of OID included in income. Note: The single amount shown is related to the tax lot for all accrual periods during the year that the security was held.

Box 7—Description. This box displays the CUSIP and an abbreviated description of each obligation.

Box 8—OID on U.S. Treasury Obligations. Amounts in this box reflect the OID on each U.S. Treasury obligation for the part of the year during which it was owned. Report the total for each U.S. Treasury obligation separately as interest income on your federal income tax return. This OID is exempt from state and local income taxes and is not included in Box 1. If the number in this box is negative, it represents a deflation adjustment. See Pub. 550 for further information on accounting for this adjustment.

Box 9—Investment Expenses. This represents your share of investment expenses of a single-class REMIC, WHFIT or UIT. This amount is included in Box 2.

Box 10—Bond Premium. This shows the amount of premium amortization allocable to the interest payment(s) of taxable covered securities, including a Treasury inflation-protected security, unless you notified the payer in writing that you did not want to amortize bond premium under section 171. If an amount is reported in this box, see the Instructions for Form 1040 (Schedule B). If an amount is not reported in this box for a taxable covered security acquired at a premium and the payer is reporting premium amortization, the payer has reported a net amount of interest in Box 2. If the amount in this box is greater than the amount of interest paid on the covered security, see Regulations section 1.171-2(a)(4).

Box 11—Tax-Exempt OID. For a tax-exempt obligation that is a covered security acquired on or after January 1, 2017, this box shows the tax-exempt OID on the obligation for the part of the year you owned it. We report the OID for a tax-exempt obligation that is a covered security acquired before January 1, 2017 only. In general, report the amount of tax-exempt OID in Box 11 on Form 1040. See the instructions above for a covered security acquired with acquisition premium. Only covered transactions will be reported to the IRS.

If there is an amount in both Boxes 10 and 11, for a tax-exempt obligation that is a covered security acquired on or after January 1, 2017, and issued with OID, the amount in Box 10 shows the amount of premium amortization for the year that reduces the amount of your tax-exempt interest for the year. We will report the premium amortization for a tax-exempt obligation that is a covered security acquired before January 1, 2017, and issued with OID.

Tax-Exempt OID (Specified Private Activity Bonds). This displays tax-exempt OID for specified private activity bonds subject to the alternative minimum tax (AMT). See the instructions for Form 6251. If the OID is not for a specified private activity bond, this column will be blank.

Income Reported Individually. We report OID income individually for each OID obligation. You should report each amount separately to enable the IRS to match the income to your return.

OID Adjustments. You may have to figure the correct amount of OID to report on your tax return, depending on the type of debt instrument, the issue or acquisition date, and other factors (for example, if you paid acquisition premium, or the obligation is a stripped bond or coupon). We report OID based on rates found in IRS Publication 1212 (Guide to Original Issue Discount [OID] Instruments), or from an independent third party. We indicate whether we used third-party rates by placing an asterisk (*) beside the amount of the OID. See IRS Publication 1212 for information on how to calculate and report your OID adjustment. If you are reporting OID in an amount less than the amount shown on Form 1099-OID, show the adjustment amount on 1040 Schedule B with the description of OID Adjustment. See the IRS Instructions for Form 1040 Schedule B, Original Issue Discount.

Stripped U.S. Government Debt Obligations. If you held a stripped U.S. government debt obligation (STRIP) during 2024 and purchased it through Pershing after 1990, we calculated the actual OID. In most cases, no adjustment to the amount on the Tax Information Statement should be required.

Your former firm should provide you with IRS Form 1099 reporting for prior activity. These instructions have been tailored for use by taxpayers that are U.S. individuals who are investors.

Additional Information:

Recipient's Identification Number. For your protection, this form shows only the last four digits of your Social Security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN) or employer identification number (EIN). However, Pershing LLC will report your complete identification number to the IRS and, where applicable, to state or local governments.

Electronic Delivery. The IRS allows for the electronic delivery (eDelivery) of 1099 forms, and Pershing offers electronic delivery of this Tax Information Statement. Benefits include faster and more secure access to most tax forms. If you would like to receive eDelivery, and go paper free, please contact your advisor or financial organization for more information.

Nominee Recipients. If your truncated Social Security number or Employer Identification Number is shown on your Tax Information Statement, and the statement includes amounts belonging to another person, you are considered a nominee recipient. Generally, you must file IRS Form 1099 for each of the other owners, showing the income allocable to each. File the applicable IRS Form 1099, along with IRS Form 1096 (Annual Summary and Transmittal of U.S. Information Returns), with the IRS center in your area. List yourself as the payer on IRS Form 1099 and as the filer on IRS Form 1096. List the other owner(s) as the recipient(s) on IRS Form 1099. This name and Taxpayer Identification Number should be listed wherever the payer's name is requested on an IRS form with respect to amounts reported on your Tax Information Statement.

Corrections. Please review your Tax Information Statement. If it is incorrect, contact your advisor or financial organization. If necessary, we will promptly correct the information provided to the IRS and mail a Revised Tax Information Statement to you. After the initial mailing, revised statements will begin mailing in February and will be mailed at least weekly from March through the end of June. If an income correction is made to your account after issuing your tax statement and the correction is an increase or decrease of less than \$100 of income, we may not send you a revised tax statement. If you would like to receive revisions that are less than \$100, please contact your investment professional.

Federal Income Tax Withheld. Federal income tax withheld is 24% of interest, dividends and proceeds from broker and barter exchange transactions, and could be reported in any of these sections of your Tax Information Statement. Backup withholding applies when certain conditions exist. If this Tax Information Statement reflects backup withholding, you may need to provide a new IRS Form W-9 (Request for Taxpayer Identification Number and Certification). See IRS Form W-9 for information on backup withholding and how to furnish your Taxpayer Identification Number.

State and Local Tax Reporting. We are required to provide information to a number of state and local jurisdictions. We report information to California, Connecticut, Massachusetts, Minnesota, New York and Rhode Island concerning municipal bond interest income earned by state residents from bonds not issued by these states. We report certain 1099 information directly to Delaware, District of Columbia, Maine, Massachusetts, Mississippi, Montana, Oregon and Rhode Island. For 2024, we withheld, remitted and reported state income tax for California, Maine and Vermont according to the requirements of those states. We also provided tax information to Puerto Rico as required by the Puerto Rico taxing authority. Check with your tax professional for your specific state and local tax reporting requirements.

Cost Basis Adjustments. There are times when your cost basis reported from a broker will not match your calculations for reporting purposes. IRS Form 8949 allows you and the IRS to reconcile amounts that were reported to you and the IRS on IRS Form 1099-B with the amounts you report on your return.

Important Note Concerning Cost Basis. Your original cost basis for each security affects much of the reporting in this document. You should pay special attention to the basis of any item where we received the basis from you or a third party. If the original basis shown in this tax document is not correct, then the results of our calculations will likewise produce incorrect results. The IRS requires us to remind you that the taxpayer is ultimately responsible for the accuracy of your tax return.

If you held shares in a mutual fund or REIT that paid tax on undistributed long-term capital gains, we will issue IRS Form 2439 (Notice to Shareholder of Undistributed Long-Term Capital Gains) to you. This information is provided after the close of the mutual fund's or the REIT's tax year and will be sent to you shortly after the information becomes available.

A foreign tax credit can be claimed either on IRS Form 1116 (Foreign Tax Credit) or, in some circumstances, by reporting it directly on IRS Form 1040, Schedule A (Itemized Deductions). See instructions for both IRS Form 1116 and IRS Form 1040 for additional information on foreign tax credits and deductions. Foreign tax paid is reported in the Form 1099-DIV sections of your Tax Information Statement. A foreign tax credit may be claimed only if the tax was legally owed and not eligible for a refund.
